

From Attachment A (items that will be available at time of ROD and Findings)

- **Watershed Program** - The watershed program is designed to provide for coordination and integration of existing and future local watershed programs and to provide technical assistance and funding for watershed activities relevant to achieving the goals and objectives of the CALFED Bay-Delta Program. The watershed program encompasses all watersheds that contribute flow to the Bay-Delta system. The actions during Stage 1 are a mix of watershed program activities and demonstration projects designed to show benefits to the Bay-Delta system. Watershed actions are inextricably linked to the other Program elements though the focus on implementation at the local level. The following information will be available at the time of the ROD & Findings:
  - Description of the linkages of the Watershed Program with other CALFED Program elements
  - Description of high priority watershed enhancement actions
  - Description of the coordination framework to define roles, funding support, and communication
  - Description of education and outreach effort
  - Description of process for evaluation of success of the watershed program
  - Description of plan to provide funding and technical assistance to foster local watershed groups
  - Description of clearinghouse function
  - Establish watershed restoration project review panel
  - Stage 1 Implementation Actions (see Attachment B.
  - Implementation Plan (see Long-Term Implementation Plan, under development)
